

Would you like to be a Citizen Scientist?
Here's how *you* can help Hawai'i Uncharted with Whale Shark Research

What information is needed?

- Date
- Location (*as precise as possible*)
- Animals sex (*if known*)
- Animals length (*estimate*)
- Identification photograph
- Your name and email

To submit a sighting go to:

hawaiiuncharted.org/submit

Or email: hawaiiuncharted@gmail.com

Each shark has a unique pattern of spots, like fingerprints. Take a photo of the left side just behind the gill slits. This will allow our scientists to estimate abundance, fidelity, and movements by comparing photos from different locations.
